

**Professional DJ/VJ Entertainment & Event Production**

**"Area Newlyweds Agree, The Music Masters Bill & Linette  
Create Unique, Romantic, and Most-Of-All FUN Wedding Receptions!"**

Dear Bride & Groom,

We would like to personally congratulate you on your engagement and upcoming wedding date. When planning this once-in-a-lifetime event you will need to make many decisions that will directly affect the experience you and your guests will have especially when it comes to hiring the right entertainment.

Our specialty is offering disc jockey and videography services at weddings (and other events too). We are extremely professional, experienced, and most of all really know how to play all types of good music. We started mixing music during the disco/classic rock era of the late 70's where we were hit DJs at our high school and college radio stations. We have been in the professional disc jockey business since 1983. We thoroughly enjoy our work and truly care about delivering what you want on your special day. Add to that the most in depth comprehensive array of on-line planning tools and you just simply can't go wrong.

We can prove to you that we really know what we are doing. We love to meet with couples if your date happens to be available and offer a free no obligation consultation. We will be happy to discuss your plans and show you in person exactly what you can expect from us. You can view some video clips from other weddings that we have done to get a better idea of our personality on the job. We will show you numerous genuine references and go through our detailed planning worksheets and music lists. You can sample songs from our music collection and we can even give you a demonstration of our video shows and karaoke too! It's a fun time and you will leave feeling comfortable having the right knowledge to make an informed decision with absolutely no pressure whatsoever. We are very flexible and available most days and nights during the week and some times during the day on weekends. Also, if you're interested in a videographer, we offer a special deal available only when hiring us for your entertainment. If you have decided to skip the "live" memories, this should change your mind. Especially after you have finished viewing some of our wedding clips.

We are so confident that we know what we are doing we are the only DJ entertainment company willing to put our money where our mouth is. If you are not completely satisfied with our service AFTER your wedding reception, we offer a 100% money back guarantee. Dare to ask any other DJ company what their refund policy is. Our continuously growing list of satisfied wedding clients all agree we offer a fun and entertaining musical experience for all. We are confident we can deliver the magical wedding reception of your dreams and you can feel comfortable in our ability to do the great job you should expect.

The bottom line is that for all we deliver together as a team our rates are reasonable and many dates fill quickly. If you are interested in our services we first ask that you either call or send us an e-mail and verify our availability. If we are open and can work within your budget, we encourage potential clients to meet with us ASAP as soon as they have decided on a date. However, this is not absolutely necessary. If you have seen us before or are hopefully pleased with what you've heard or read, we can send you a contract and hold your date pending receipt of a deposit.

Again, many congratulations, the best of luck, and warm wishes that your wedding day is exactly what you both have always dreamed about. Thank you for your time in considering The Music Masters.

Musically Yours,

Bill & Linette Strain
