"Thank you very much for the great job you did DJ-ing our wedding reception. The music was great and the dance floor was full most of the night. Planning the event was easy. Your form made everything go smoothly, and it paid off when the reception went well. Thanks for all your hard work."

Alison and Terence

"I just want to say what an excellent job you did as our DJ at our wedding reception. I have had so many people come up to me and say that the music was excellent and the selection was right on target. Not only did you have the finesse and presence of a professional but also you had the technology to match. Any song that we could think of you had at your fingertips. My Matron of Honor had said to me that she could have only wished that she had a DJ like you."

Wendy and David
